The Tasmanian Advantage

Tasmania, an island located off the coast of Australia, is uniquely positioned to produce world-class food and beverages. With exceptionally clean air, rich and fertile soils, a temperate climate, and access to pure rainwater, Tasmania has it all.

Our island state prides itself on stringent biosecurity standards, and it is the only Australian state free from many major pests and diseases. Tasmania is also proudly free from genetically modified organisms. Additionally, Tasmania has achieved 100 per cent renewable energy status, showcasing our commitment to sustainability, which is at the heart of everything we do.

This pristine natural environment, combined with rigorous controls, creates optimum conditions for producing fresh seafood sourced from pristine waters, soothing teas, premium UHT dairy and plant-based products, gourmet freeze-dried ice cream and cold climate honey. And there's so much more to discover.

We invite you to taste and experience the Tasmanian advantage at stand number S-J54 – where purity meets outstanding quality.

Storm + India

Pioneers in organic and natural products, the Bellamy sisters Storm and India couldn't find 100 percent natural products that met their high standards for efficacy, purity and taste. So, they founded Storm + India, creating pure functional products for women, children and babies using high quality Tasmanian cold climate ingredients. Their journey started with a deep belief: true wellness comes from the earth, nurtured by nature and harvested with care.

Products:

- Storm + India Beauty Honey
- Storm + India Good Night Honey
- Storm + India Well-Child Honey
- Storm + India Organic Baby Food
- Storm + India Organic Wellness Teas

Objectives:

- Importers
- Distributors
- Wholesalers or retailers
- Influencers
