*There were no redundancy or separation payments made that related to the renaming of the Department of State Growth as Building Tasmania and the associated re-brand. In March 2026, the Government announced its expectation that the Department would reduce its total Full Time Equivalent staff by 250. Following an expression of interest (EOI) process, some staff have had their EOI accepted and received payments associated with their separations. Despite these figures not being associated with the re-brand, these figures were provided to the applicant.
