The Tasmanian Advantage

Tasmania, an island located off the southern coast of Australia, is ideally positioned to produce world-class food and beverages. With exceptionally clean air, rich and fertile soil, a temperate climate and access to pure rainwater, Tasmania has it all.

Our island state maintains stringent biosecurity standards and is the only Australian state free from many major pests and diseases. Tasmania is also proudly free from genetically modified organisms. Additionally, Tasmania has achieved 100 per cent renewable energy status, demonstrating our commitment to sustainability, which is at the heart of everything we do.

This pristine natural environment, combined with rigorous controls, creates optimum conditions for producing high-quality meats, award-winning spirits, world-class cheeses, premium beer and cider, as well as exceptional cold climate honey, UHT dairy and an extensive range of gourmet condiments. And there's so much more to discover.

We invite you to taste and experience the Tasmanian advantage at stand number 8C2-04 – where purity meets outstanding quality.

Battery Point Distillery

Battery Point Distillery was born from a passion for Tasmania and the respected traditions of master whisky distilling. A small stone building in Hobart's historic Battery Point contains a treasure trove of small batch, hand-made whiskies.

Their House Of Lenna Gin has been created to provide a gin that can be easily enjoyed on its own, as well as in a cocktail or martini. Complex, but not complicated, the gin is rich and smooth with a long and gentle finish.

Awards:

- Gold – Triple Cask, World Whiskies Awards, 2025
- Silver – Triple Cask, Melbourne Royal Australian Distilled Spirits Awards (MRADSA), 2024
- Silver – House of Lenna Slow Gin, MRADSA, 2024
